DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group I, species A in Paper dated 4/8/04 is acknowledged. The traversal is on the ground(s) that the inventions have not acquired a separate status in the art because the classification of claim 31 is unknown and that the proposed different product set forth by the examiner is not a product itself. This is not found persuasive because even though the classification of claim 31 is unknown it is known that claim 31 is not classified in the same art area as claims 1-30. Concerning the proposed different process, a sheet of paper with a drawing thereon can be considered a product and the instant claim does not require in particular structure other than points and line segments connecting the points.

The requirement is still deemed proper and is therefore made FINAL.

Information Disclosure Statement

2. The references cited by applicant and not considered by the examiner were not considered because there was no publication date associated with the references.

Claim Rejections - 35 USC § 112

3. Claims 5-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which

Art Unit: 1772

applicant regards as the invention. There is no antecedent basis for the term "the five points" in claim 5. If the dependency of claim 5 was changed to depend on claim 4 this rejection would be overcome.

Allowable Subject Matter

4. Claims 1-4, 9-25, 29 and 30 are allowed.
